Miro

Jira / CSS

HTML / CSS

React

EXPERIENCE

LEIDOS, UX Software Design Engineer

Aug 2021 - Present | Morgantown, WV (Remote)

- Led the strategy, architecture, and documentation of a scalable design system for defense enterprise applications, establishing reusable components and interaction standards.
- Defined reusable component libraries, interaction patterns, and governance guidelines to reduce design rework and improve cross-team implementation.
- Designed high-fidelity prototypes and complex workflow solutions for mission-critical tools operating within strict technical and regulatory constraints.
- Directed the complete user research process from study design and stakeholder alignment to execution, analysis, and insight delivery, driving system architecture decisions.
- Applied advanced information architecture and journey mapping techniques to simplify high-density workflows and support long-term product scalability.

LANDVOICE, UX/UI Intern

May 2021 - August 2021 | Orem, UT (Remote)

- Developed onboarding processes and redefined design standards to create cohesive, scalable design systems across products.
- Partnered with product and engineering teams to deliver user-centered solutions ahead of development schedule.
- Contributed to interaction design improvements that increased engagement and improved customer success rates.

SOUTHWEST MARKET, Lead Web Designer & Site Manager

May 2020 - April 2021 | East Lansing, MI

- Led design strategy and implementation using Shopify CMS for flagship ecommerce marketplace
- Conducted in-depth user research, including cognitive walkthroughs and KPI analysis, to inform design decisions that enhanced site navigation and user satisfaction.

Valeo, Comfort & Driving Assistance Co-op

May 2017 - August 2017 | Troy, MI

- Prototyped and tested autonomous parking aid/braking for 2020-2023 vehicles with smart mobility team
- Presented human-centered design insights to management regarding parking aid development, resulting in an unambiguous collision detection system for end user
- Presented cost analysis for acquisition of testing materials to management decreasing testing costs by 20%

EDUCATION

Michigan State University, BA in Experience Architecture

2016 - 2021 | East Lansing, MI

Major GPA: 3.93

Dean's List all applicable semesters
